

FESTIVE PAPER CHAINS

HOW TO MAKE:

You will need: a printer, paper, scissors or scalpel, glue or tape

Step 1: Download the paper chain sheets

Step 2: Cut out the strips. Each strip has a tab and a slot for easy assembly, but you could also cut off the tabs and glue or tape the strips. Each link has a front and back, so you can choose to have a pattern on the outside and a colour on the inside.

Step 3: Join all the links together to make the chain and decorate your house!!
